This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

PREFACE.

In 1835, Mr. Reid—Registrar of the late Sudder Dewanny Adawlut, Calcutta—published a Chronological Table from 1764 to 1835, but the same being out of print, it has been found necessary to reprint the work bringing it up to date. A Table containing corresponding dates of different eras was published under authority of Government in 1868 after which it is published annually in parts and is circulated amongst its judicial officers only, consequently the want of it is felt by the Public. With a view to supply this desideratum the compiler has undertaken the publication of the Chronological Table, in hopes that it will be found useful to the Public.

In 1875 the compiler published a Chronological Table of the English, Bengalee, Shaka, Mughee, Villaity, Fuslee, Sumbut or Hindee, and Hijree eras down to the end of 1875 A. D. The present is a reprint of that Table with a continuation down to the end of 1890 A. D.

GIRISH CHANDRA TARKALANKAR.

* In this lunar year there occur two intercalary months and one month is expunged from the Calendar, owing to the principles for the formation of the lunar year, from the position of the moons in regard to the solar year. The expunged month embraces the second or *Soodee* half of Ughun and the first or *Budee* of Poos.
